

## Business Administration

<http://www.pacificu.edu/as/business>

The department offers a major and minor in Business Administration. Students who have decided to major in Business Administration should have an advisor in Business Administration before their junior year. Juniors and seniors in Business Administration should be advised by someone in the department.

**Whenever possible, students are strongly encouraged to complete coursework according to the following timetable:**

Year	Business Administration Major
Freshman	Econ 101 Econ 102
Sophomore	BA 201 BA 202 Math 207
Junior	BA 305 BA 306 BA 309 BA 350 BA 360 Electives in area of concentration
Senior	BA 405 Electives in area of concentration BA485 BA490

### Notes:

Many business courses have prerequisites. Students should review course descriptions in the catalogue before registering for courses.

Econ 101 and 102 are stand-alone courses and can be taken in any order; however they should NOT be taken at the same time.

BA 201 and BA 202 are stand-alone courses and can be taken in any order; however they should NOT be taken at the same time.

Math 207 has a prerequisite of Math 122, so students whose math placement is "I" (Math 122) should begin Math 122 immediately and then complete Math 207 (statistics).

BA 405 is one of three business capstone courses and as such must be taken in the senior year concurrently if BA 485 and BA 490 are offered. BA305, BA 309, BA350 and BA 360 are prerequisites for BA 405 and must be taken before BA405.

Prerequisite of C- or better in BA 201 and BA 202 before taking BA 300+ level courses

Students are encouraged to take additional math courses, writing courses and computer literacy courses, since the skills strengthened by these courses are essential to careers in business and economics.

**Minors:**

Students intending to minor in Business Administration should complete Econ 101, Econ 102, BA 201, and BA 202 as early as possible (Freshman and Sophomore years). This will give students more flexibility in choosing upper-level electives.

**Areas of Concentration**

Students majoring in Business Administration are required to select a concentration in one of the following areas: Accounting, International Business, Management, or Marketing. Students planning a career as a Certified Public Accountant must complete 150 semester hours of college course work prior to taking the CPA exam.
