

Optometric Residency Program

GERIATRIC OPTOMETRY
PRIMARY EYE CARE
DEPARTMENT OF VETERANS AFFAIRS

VA PUGET SOUND HEALTH CARE SYSTEM
AMERICAN LAKE DIVISION
TACOMA, WASHINGTON

SPONSOR: DEPARTMENT OF VETERANS AFFAIRS MEDICAL CENTER, TACOMA, WA
AFFILIATE: PACIFIC UNIVERSITY COLLEGE OF OPTOMETRY, FOREST GROVE, OREGON

MISSION

This Primary Eye Care/Geriatric Optometry Residency is a one-year post-doctoral training program sponsored by the VA Puget Sound Health Care System, American Lake Division. This residency program offers qualified Doctors of Optometry an educational opportunity to treat an exceptional outpatient veteran population from the South Puget Sound area of Washington. Primary eye and vision care experiences include,

but are not limited to, ocular disease management, low vision, and limited binocular vision and contact lenses. Compassionate and individualized patient care is expected. An interdisciplinary approach to the delivery of health care will be cultivated and full utilization of the medical center and University's resources will be encouraged. Residents will develop clinical and didactic teaching skills.

GENERAL INFORMATION

Residency Program Supervisors
Jeffrey A. Hiett, O.D.

Duration of Agreement

July 1 through June 30

Number of Positions

Three (3) residency positions available each year

Annual Salary

Periodically adjusted by the Office of Academic Affairs VHA. Please contact residency supervisor for current salary information.

Hours

Expected range of hours of attendance in a typical week of activities is 40 hours. The Eye Clinic runs Monday through Friday from 8 a.m. to 5 p.m.

Leave

Residents earn thirteen days paid annual leave and thirteen days paid sick leave per year. There are also ten paid Federal Holidays.

Professional Liability Protection

The U.S. Government accepts responsibility for the actions of its employees during exercise of official duties. VA residents are protected by the Tort Claim Act in instances of alleged malpractice resulting from performance of their duties in or for the Veterans Health Administration.

Health Insurance Benefits

The VA provides full medical health insurance to residents.

Certificate of Completion

A certificate of completion will be awarded to the resident upon satisfactory completion of residency requirements.

PROGRAM GOALS

- 1 Enhance the resident's ability to identify and manage ocular disorders in the elderly.
- 2 Teach the resident how to most effectively integrate his or her skills into an interdisciplinary program designed specifically for the geriatric patient.
- 3 Prepare optometrists for careers in hospital-based optometry and/or clinical teaching.

RESIDENCY EXPERIENCE

Scholarly Activities

Residents are expected to author a manuscript suitable for publication and to present this work at the annual Northwest Optometric Residents' Conference.

Continuing Education

Residents are entitled to attend continuing education sponsored by the Pacific University College of Optometry and the Department of Veterans Affairs at no charge for credit hours. A nominal fee for printed materials and meals will be required for some Pacific University functions. Authorized absence from clinical responsibilities can be granted for attendance of educational conferences. Numerous conferences are available at no charge for optometrists in or around the Seattle/Tacoma area.

Lecturing

Residents will present a lecture at the annual Northwest Optometric Residents Conference prior to the completion of the residency program. Residents will also be expected to give numerous presentations to the Eye Clinic and interdisciplinary staff throughout the year. Opportunities for participation as a lecturer at Pacific University also exist.

Clinical Privileges

Residents are required to be supervised as per VA Chapter 26 and Medicare regulations. The Optometry Residency Program Supervisor must submit a statement regarding the residents' level of training, which determines the residents' scope of practice. Optometry privileges at VA Puget Sound Health Care System are equivalent to Washington State law.

Performance Evaluations

The residents will receive written evaluations from the Residency Program Supervisor at four months, eight months, and at the completion of the residency. The residents will evaluate the residency program at these same intervals.

WORKSITE

Residents will be expected to work at the American Lake Division Optometry Clinic and Blind Rehabilitation Center. Residents may visit external sites for educational purposes.

Clinical Facilities

The Department of Veterans Affairs Puget Sound Health Care System is a modern facility composed of two divisions (Seattle and Tacoma) which offer care to over one million veterans in Washington, Idaho, and Montana. The clinical facilities are spacious and well-equipped to serve both patient needs and the residency program's educational objectives.

Specialty Clinics

Low Vision, Retina, Glaucoma, and Oculoplastics/Ophthalmic Pathology

SPECIALTY AREAS AT AMERICAN LAKE DIVISION

Low Vision/VIST/BROS Program

Residents participate in complete low vision evaluations as part of the Blind Rehabilitation Center/Low Vision rotation.

Retina, Glaucoma, Oculoplastics, Ophthalmic Pathology, and Surgical Ophthalmology Clinics

Patients are examined with board certified, fellowship-trained staff.

Library and Research Resources

Residents are provided access to the libraries and computer databases at American Lake, Seattle, and the University of Washington. The general libraries at American Lake, Seattle, and the University of Washington carry a large number of ophthalmic periodicals. The University of Washington and Madigan Army Medical Center Libraries are available for use upon request.

Computer Access/Email/Telephone Care

Computer workstations are available with Internet access in each eye exam room. Residents are assigned an email address for communicating with other health care providers both in Tacoma, Seattle and surrounding areas, as well as Portland and Vancouver areas.

Ocular Prosthetics Services

Prosthetic eyes are provided to veterans in conjunction with Erickson Labs Northwest.

Perimetry, Digital Photography, & OCT

A health technician administers Humphrey and Matrix FDT visual field evaluations, digital photography, and OCT upon request.

Weekly Optometric Seminar

Seminars are based upon the needs and desires of the residents.

Administration Time

Each resident is scheduled eight hours each week for administrative time. This time is intended to be used for preparation of case reports and library research.
