

**Immunization Documentation due 2 weeks prior to beginning classes.**  
 Pacific University Student Health Center  
 2043 College Way A174, Forest Grove, OR 97116  
 Phone: 503-352-2269 Fax: 971-266-2953

**Name:** \_\_\_\_\_ / \_\_\_\_ / \_\_\_\_  
 Print (last, first, middle initial) Birth date (mo/day/yr)

**Signature:** \_\_\_\_\_ **Student ID (if known):** \_\_\_\_\_

Please indicate (✓) your program:

College of Arts & Sciences Undergraduate	Healthcare Compliance, Online Programs
College of Business	Master of Fine Arts/Writing
College of Education	Master of Social Work

- ✓ **Submit the following information by providing a copy of your immunization documentation. Documentation may be obtained from your family physician or provider, last high school or college attended, military records or from your parents records.**
- ✓ **Immunization information is due two week prior to beginning classes at Pacific. Students who do not provide, at minimum, "required" Measles/MMR immunization information will experience a registration health hold. A Hold prevents students from registering for classes in any subsequent terms/semesters.**
- ✓ **Please note: If you are an athlete, you may be asked to submit immunization information to the Athletic Training staff as well. Information is not shared, you must submit copies of your documentation to the Student Health Center.**

**REQUIRED IMMUNIZATIONS:**

**COVID-19 Vaccination(s)**

Pacific University requires all eligible students to complete a full series of COVID-19 vaccine and to show proof of a COVID-19 booster vaccination. Links to medical or religious exemptions can be found on our webpages.

**MMR (Measles, Mumps, Rubella) Immunization:** In accordance with the Oregon State Health division, two doses of measles (rubeola) vaccine commonly given as an MMR **are required** of all entering students born on or after January 1, 1957.

**Section A**

- Two doses of measles vaccine, commonly given as an MMR, on or **after** your first birthday and at least 28 days apart. Documentation must include "month/day/year". Dose #1 usually given between 12 – 18 months of age. Dose #2 usually given at 5 years of age.

**Section B (Exemptions to measles requirement)**

- My birth date is before January 1, 1957.
- My measles (**rubeola**) titer (blood test) report is attached and indicates that I am immune to measles.
- A signed physician/nurse practitioner/physician assistant statement is attached verifying I have had a medical reason for not receiving the immunization (i.e. anaphylactic reactions to eggs, or immunocompromised state, etc.).
- My non-medical exemption certificate is attached. A non-medical exemption certificate can be obtained by reviewing the vaccine education module at **www.healthoregon.org/vaccineexemption** and submitting proof of completion certificate.

By signing below, I understand that if I have not received the measles vaccine I am at risk of acquiring the measles virus. In the event of a measles outbreak, I understand I may be excluded from the university under the direction of the local health officer or the Student Health Center Director. I also agree to defend, indemnify, and release the university from any and all claims resulting from my failure to receive the measles vaccine.

 Birth date (mo/day/yr)

**RECOMMENDED IMMUNIZATIONS:** The following immunizations are recommended by The CDC (CENTER FOR DISEASE CONTROL & PREVENTION) Please note, these vaccines are recommended not required for Undergraduates in the College of Arts and Sciences, Graduate students in the College of Education, College of Business, Masters of Fine Arts and Masters of Social Work

- Tetanus-Diphtheria-Pertussis (Tdap) received within last 10 years**
- Varicella (Chickenpox) Vaccine \*2 dose Series OR History of Chickenpox Virus**  
 \*Varicella Vaccine is only recommended if you have NOT had chicken pox virus
- Hepatitis A 2 dose Series**
- Hepatitis B 3 dose Series**
- Human Papilloma Virus (HPV) Vaccine/3 doses through age 26**
- TB Skin test/Tuberculosis Screening** within 6 months prior of entering Pacific University.  
 If TB Skin test/Tuberculosis Screening is positive:  
 Quantiferon Gold Testing **or** Chest X-ray
- Meningococcal Vaccine \*** Meningococcal conjugate (ACWY) and/or Meningococcal Serogroup B  
**OR** Trumenba 3 dose series

\*There are two vaccines protecting against different strains of meningococcal bacteria: ACWY and B. If you get one, it doesn't protect against the other. There have been several outbreaks of Meningococcal B in Oregon Colleges over the last few years (but not at Pacific University). All College Students should be vaccinated for Meningococcal ACWY. Check with a health care provider to see if you should get the Meningococcal B vaccine.

**Yearly Influenza Vaccine**

All vaccines available by appointment at the Student Health Center (except Varicella & Meningococcal).

In compliance with Oregon Law 274 we are providing you with information on vaccine preventable diseases known to occur in individuals 16-21 year of age. Please review at [www.pacificu.edu/VaccineInfo](http://www.pacificu.edu/VaccineInfo).
