ESCHENBACH LOW VISION STUDENT AWARD

Dear Administrator/Director of Low Vision at Schools of Optometry:

Eschenbach, a leading manufacturer of high quality magnification solutions, is pleased to continue offering the **Eschenbach Low Vision Student Award in 2019!**

This award is designed to recognize the skills and achievements of one of your 4th year students who has shown an exceptional aptitude and interest in the field of low vision. The recipient would be chosen by your school of optometry using a selection process of your choice.

Eschenbach recognizes the importance of educating optometry students about the field of low vision and how they, as future low vision practitioners, can help improve the quality of life for those who are visually impaired. We hope this award will encourage your honored student to offer low vision care upon completion of their studies, and also increase awareness of the field of low vision at schools of optometry.

If your school is interested in participating in this program, please send me an email at jcamarata@eschenbach.com and provide the name of the student you have chosen to win the award. Once we receive the name of the student, an Award Certificate and Award Letter will be emailed to you to provide to the award winner. The Award Letter will recognize the winner's achievement and entitle them to receive a complimentary [Visolux Digital XL FHD](#), our 12" Portable Video Magnifier with touch screen technology, and a [Visolux Digital Carrying Case](#).

Also, be sure to ask your local Territory Manager about the free in-services they can provide at your school to help educate your students about the newest low vision solutions available!

Thank you,

Jillian Camarata
