Office of the Chair

1) maintaining and increasing teaching excellence, 2) increasing faculty productivity and effectiveness, 3) revising our evidence-based practice policies and procedures, surviving this year, and what we will work on next fall to make this transition successful! As with most transitions, it has not always been easy. While we experienced many challenges, we also experienced success and growth, and all are excited to be a stronger program. I offer a special thank you to the students, staff, and faculty of the School of Physical Therapy. We are currently in the process of revising our website including frequent news updates and seeing you at our 40th Anniversary.
