

## Did you know...

### NOW IS THE TIME TO BECOME A HEALTH PROFESSIONAL

Workforce shortage of Physical Therapists,  
Occupational Therapists and Dental Health providers  
in the Hawaiian Islands

Ever-growing job demand in healthcare professions

Numerous scholarships and grants available to those  
from Hawaii and those native to the Hawaiian Islands

Opportunities to experience different cultural  
approaches in healthcare and bring them back home

Positive career trajectory as mentors aid in developing  
career maps with students

## Touch the Future

Student mentorship program

HAWAII

KULIA  
IKA NU'U

Helping students realize their educational goals since 2010

## Pacific University Cares

### Objective & Benefits

- Introduce the Idea of college to students grades 6 through 12
- Communicate the Importance of health professions studies, especially math and science
- Provide mentoring to young learners from Pacific University health professions students
- Deliver hands-on activities and presentations
- Meet with local healthcare providers

Pacific University President, Lesley Hallick at Lu'au 2014

## What We Do

### Implementation

**PHASE 1** | Pacific University faculty, staff and current graduate students meet with students, grades 6 through 12, via web-conference technology at their schools with their teachers and fellow students.

**PHASE 2** | On-site meeting, discussion and activities that are student-focused. They will understand the importance of their present schooling and evaluate their future goals as healthcare professionals.

### Our Goal

Whether students graduate from Pacific or another Institution, our goal is to see college graduation pictures hanging in homes across the Islands!

### Mentorships

**Allow our students to help yours with:**

Course preparation • College applications • SAT Testing Resources • Job Shadow Connections • Financial Aid and Scholarship Applications

**Pacific graduate programs providing mentors for your students**

Athletic Training • Audiology • Counseling • Dental Health Healthcare Administration • Occupational Therapy Optometry • Pharmacy • Physical Therapy • Physician Assistant Studies • Psychology • Speech Language Pathology
