Section I. Block Description & Goals

| Block Coordinator & Contact Information: | Jeremy Hughes, PharmD  
Director for Experiential Education & Assistant Professor  
Office: Creighton Hall 561  Phone: 503-352-2682  
Office hours by appointment |
| Credit(s) & format: | 6 credit course, minimum of 240 hours (over 6 weeks) |

Block Description:
This Advanced Pharmacy Practice Experience (APPE) provides a forum to gain competency in the practice of pharmacy in a non-patient care setting. This experience will provide integration of didactic skills, knowledge and introductory experiences such that the student is competent in providing effective and appropriate pharmaceutical care in a non-patient care setting. Students should understand that each experiential learning site is a health care work site and the process of learning will involve working as a pharmacist-in-training.

Block Goals:
The learning objectives for this APPE are based on competencies developed in association with the Northwest Pharmacy Experiential Consortium. The pharmacy intern will:

1. Retrieve, analyze, and interpret scientific, professional, and lay literature.
2. Demonstrate professionalism.
3. Apply effective communication strategies.

Block Attendance Requirements:
- See Experiential Manual. Students should discuss their schedule with the preceptor.

Policies:
- The School and University policies concerning academic integrity and dishonesty, as well as student conduct are described in the Pacific University School of Pharmacy (SOP) Student Handbook and Experiential Manual. The Handbook incorporates School policy with University policy to ensure the proper handling of all academic, professional, and experiential issues faced by students.

Requirements to Pass This Block:
1. The site-specific expectations form must be submitted by 8 am (PST) on Monday of Week 2. The form must be signed by preceptor in writing and submitted electronically via E*Value. Failure to submit the expectations form in a timely manner will result in removal from your APPE site; the student is responsible for making up any missed hours.
2. The student must complete all preceptor specific assignments. The type, topic, and due date will be determined in conjunction with the preceptor within the first two weeks of the experience. Assessment of the project will be completed by the preceptor.
3. It is the student’s responsibility to make sure that the preceptor has completed and submitted both
midterm and final evaluations. The School must receive the following assessments within three business days of completion of this APPE. If these assessments are not received by the School within three days of completion of this APPE, an incomplete will be assigned, which will result in a delay in student financial and academic progress.
   a. Student assessment of preceptor
   b. Student assessment of site/experience

4. Rotation hours logging: document hours on a daily basis. A passing grade on the student’s Final Evaluation indicates the student has accomplished 240 hours of rotation time during this block.

The School uses a “Pass” (P)/“No Pass” (N)/“Incomplete” (I) system of recording student achievement. Assessment will be completed as outlined in the Experiential Manual. As stated in the Experiential Manual, it remains to Pacific University School of Pharmacy to award a final grade for each experience.

The School reserves the right to remove a student from an experiential site at any time if there is a concern for patient safety or any inappropriate professional or ethical behavior. If a student receives a score of No Pass for any of the APPE blocks, the student may be granted the opportunity to remediate that block, if approved by the Student Promotions Committee. Remediation will be allowed as outlined in the Experiential Manual. Failure to pass the block a second time will result in removal from the program. The Student Promotion Committee examines exceptions to this policy on a case-by-case basis.

Required Resources:

1. Pacific University School of Pharmacy E*Value website
2. Experiential Manual, Pacific University School of Pharmacy Student Handbook, and Pacific University Student Handbook

   Materials as assigned by preceptor or participating health care professionals

Block Changes:

- The provisions of this Block Syllabus may be added to, deleted from, or changed, if, in the opinion of the Block Coordinator, it becomes necessary to do so to achieve block objectives. The students and curriculum committee will be notified in advance of any such changes.
# Site Specific Expectations

(Please list a total of up to 10 additional expectations. Note: May be any combination of Preceptor Specific and Student Specific Expectations).
