DRIVER TRAINING PROGRAM

Our insurance carrier requires that all employees and students, who drive or intend to drive University owned OR Rented vehicles (under the University's name & use of University insurance), be approved through our Driver Training program.

The Driver Training program has been reviewed and approved by our insurance carrier and is in place for all students, staff and faculty that wish to become an authorized University Drivers.

Facilities Management is responsible for administering the training of individuals. Facilities Management also maintains the records of individuals that have been approved by our insurance to participate and then trained for specific vehicle(s).

Depending on the type of vehicle required, the approval and/or training varies. Please refer to examples:
