AWARDS REPORTING DATE — June 1, 2017
Awards will be reported to all entrants and their sponsors

MINNIE FLAURA TURNER
was an Oakland, California Public Schools English Teacher
whose vision was impaired

The Minnie Flaura Turner Memorial Fund for Impaired Vision Research is a charitable trust to be held in perpetuity for the purpose of stimulating doctoral research related to impaired vision in the academic fields of physics, electrical engineering, psychology, education, medicine and other related disciplines.

The trustee is directed to distribute annually the net income from the trust in amounts of two thousand five hundred dollars ($2,500.00) to those graduate students who apply that are enrolled in institutions who are members of the Association of Schools and Colleges of Optometry (ASCO). Applications shall be reviewed by the trustee and the Dean of the School of Optometry at the University of California, Berkeley, who will determine those applicants who shall be awarded the grants. Winning applicants will be notified and awards will be made in June of each year. Interested applicants should provide a five hundred word prospectus of the research that they have undertaken for their doctoral thesis, and these prospectuses should be submitted to the trustee no later than April 1, 2017. The grants are to be used against expenses which are incurred in the presentation of their doctoral thesis to recognized academic groups.
