

Optelec is asking for your consideration to sponsor a Low Vision Award, and we will donate a low vision starter kit to the graduating student. We believe that the Low Vision Starter Kit is a valuable gift that will greatly benefit one of your distinguished students who have excelled academically, or have contributed to university service. Please see further details about the kit below:

**Optelec Low Vision Starter Kit To Go**  
**Item No. 8894C**                      **Value: \$563.70**

Description: Kit contains a range of Optelec PowerMag+ items to assess the needs of your patients. Includes three illumination choices and powers from 3X to 7X in stand and hand-held as well as dome magnifiers, all magnifiers are *made in Germany*. Optelec PowerTV Glasses and a near acuity chart for assessments are included. Comes neatly packed in a black case for easy on-the-go assessments.

It is Optelec's goal to strengthen our partnership by sharing our support for your aspiring optometry students through our high quality optical products and professional tools that will allow them to provide low vision patient care.

If you decide to participate, we will send you a letter and certificate for the recipient to be presented at the awards ceremony which will allow the recipient to claim the kit at his/her convenience by providing us with their ship to address. This will make it easier for the graduate since he/she can receive the kit once settled into their new position.

Additionally, we would ask you to provide a photo or brief statement either from you or the student that we can highlight as a special congrats in our Professional eNewsletter and website following the graduation.

Thank you for your time and consideration. If you would like to join this award program or have additional questions, please don't hesitate and email us at [marketing@optelec.com](mailto:marketing@optelec.com) or call 800.826.4200.

Sincerely,

Stephan Terwolbeck
