Pacific University Professional Development Leave Policy

PURPOSE:
The Professional Development Leave Policy provides the opportunity for eligible university administrative staff members to pursue unique professional development, community outreach, and/or specialized school or training opportunities during a supported, extended leave. The leave policy firmly reflects Pacific University’s commitment to enhanced employee personal and professional performance, the acquisition of new skills and abilities, and individual life-long learning through education, service, research, or related pursuits. Although professional development leaves are a privilege and not a guaranteed, accrued benefit, this policy does provide those staff members who may have extraordinary learning opportunities the support to pursue those activities on behalf of the institution.
